I sent the email below to Fern a few days ago.

One problem I see that is adding to the confusion:
EPA should be communicating with BNSF, not with Arcadis, none of Brandon's string of emails has BNSF or myself included, so I'm not sure there is clear awareness of the issues. Last time I spoke with Mike, BNSF project manager, I thought we agreed that BNSF would seek access from BIA and Navajo Nation (with Vivian's assistance)? If this isn't the case, we should talk. I think it's important that any communication we have with Arcadis goes through BNSF.
